## INTERIM MANAGEMENT REPORT OF FUND PERFORMANCE

*For the period ended June 30, 2025*

*GreenWise Balanced Portfolio*

This interim management report of fund performance contains financial highlights but does not contain either the interim financial statements or the complete annual financial statements of the GreenWise Balanced Portfolio (the "Fund"). You can get a copy of interim financial statements or the annual financial statements, at your request and at no cost, by calling us at 1-888-929-7337, by writing to us at 1305 Lebourgneuf Blvd, Suite 550, Quebec City, Quebec, G2K 2E4 or by visiting our website [www.rgpinvestments.ca](http://www.rgpinvestments.ca) or SEDAR+ at [www.sedarplus.ca](http://www.sedarplus.ca).

Securityholders may also contact us using one of these methods to request a copy of the Fund's interim management report of fund performance, proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

## Caution Regarding Forward-Looking Statements

Certain portions of this Report including, but not limited to, the sections entitled Results and Recent Developments, may contain forward-looking statements about the Fund, including its strategy, risks, performance and condition. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions or that include words such as “expect”, “anticipate”, “intend”, “plan”, “believe”, “estimate” and similar forward-looking expressions or corresponding negative versions.

In addition, any statement that may be made concerning future performance, strategies or prospects and possible future actions taken by the Fund is also a forward-looking statement. Forward-looking statements are based on current expectations and projections about future developments and are inherently subject to, among other things, risks, uncertainties and assumptions about the Fund and economic factors. Accordingly, assumptions concerning future economic and other factors may prove to be incorrect at a future date.

Forward-looking statements involve inherent risk and uncertainties with respect to general economic factors, so it is possible that predictions, forecasts, projections and other forward-looking statements will not be achieved.

Forward-looking statements are not guarantees of future performance, and actual developments and results could differ materially from those expressed or implied in any forward-looking statements made by the Fund. Any number of important factors could contribute to these digressions, including, but not limited to, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, global equity and capital markets, business competition, technological change, changes in government regulations, unexpected judicial or regulatory proceedings and catastrophic events. The above list of important factors that may affect future results is not exhaustive. Although such statements are based on assumptions that are believed to be reasonable, there can be no assurance that actual results will not differ materially from expectations. We caution you not to place undue reliance on these statements as a number of important factors could cause actual events or results to differ materially from those expressed or implied in any forward-looking statement.

We encourage you to consider these and other factors carefully before making any investment decisions. Any forward-looking statement presented in this report is valid only as of the date of this report. The reader should not expect this information to be updated, supplemented, or revised due to new information, new circumstances, future events, or otherwise. All forward-looking statements may be changed without notice and are issued in good faith without any legal liability.

# Interim Management Report of Fund Performance as at June 30, 2025

## GreenWise Balanced Portfolio

### Results of Operations

The Fund's Class "A" returned 3.1%, after deducting fees and expenses, for the period from January 1<sup>st</sup>, 2025, to June 30, 2025. The net returns of the other classes of this Fund are similar to those of Class "A", except for differences attributable to the fee structures specific to these classes. For the performance of the various classes and the Fund's long-term performance, please refer to the "Past Performance" section of this report.

The Fund's benchmark returned 2.5% for the reporting period. It is composed of 60% of the MSCI World ESG Leaders Index in Canadian currency, 28% of the FTSE Canada Universe Bond Index and 12% of the Bloomberg MSCI Global Green Bond Index hedged in Canadian currency. As a result, the Fund slightly outperformed its benchmark. Unlike the indices, the Fund's performance is determined after deduction of fees and expenses. In addition to these fees, other factors also influenced the Fund's performance.

With more than half of its assets invested in equities, the Fund took advantage of the strong stock market recovery in Q2 2025, offsetting the declines that occurred earlier in the year. Despite periods of high volatility, the manager has not made any significant changes to the Fund's sector and geographic allocation strategies. However, the percentage of the Fund invested in equities increased by around 5% over the period. Conversely, the percentage invested in the underlying RGP Impact Fixed Income Fund was slightly reduced. The industrial sector remained the most heavily represented in the Fund, with nearly 22% of the portion invested in equities as at June 30, 2025. This weighting is higher than that of the benchmark index.

At the close of the reporting period, the Canadian bond pool returned 1.4%, while the global green bond pool, hedged in Canadian dollars, gained 2.5%. The U.S., Canadian, and developed European and Asian stock indices advanced by 0.6%, 10.2% and 13.3% respectively over six months, when reported in Canadian dollars. Against this backdrop, the Fund benefited from its slightly lower allocation to U.S. equities than its benchmark. The MSCI World ESG Leaders Index rose by 2.8% in Canadian dollars, slightly underperforming its counterpart (the MSCI World Index), which does not incorporate ESG criteria, which may have slightly hampered the Fund's positive ESG filtering strategies. The general weakness of the U.S. dollar reduced returns on U.S. equities, when reported in Canadian dollars.

The Fund benefited from the pronounced rise in its holdings in the underlying RGP Emerging Market Fund, as well as those of several companies in the industrial sector that focus on services rather than the production of goods. The Fund did, however, suffer from the sharp decline of some biotech companies held in the portfolio.

The net asset value of the Fund's assets decreased by \$2.0 million during the period, ending at \$123.8 million at June 30, 2025. This change is mainly attributable to negative net securityholder transactions.

### Recent Developments

Geopolitical and economic risks created a great deal of uncertainty during the period, but markets continued to prove more resilient than anticipated in the context. The new U.S. administration's intentions to increase trade tariffs led to a pronounced downturn in equity markets and in the Fund at mid semester, although concerns later subsided.

This concern subsequently dissipated. The final level of tariffs set by the U.S. government remains uncertain, as does their impact on international trade. The price of a barrel of oil ended the period lower, benefiting the Fund's negative screening strategies on sensitive industries, which include fossil fuels. The introduction of a new U.S. budget bill, which would extend Trump's 2017 tax cuts, could increase debt levels and reignite inflationary pressures in the future. Currency prices and risk premiums on long-term bonds may yet experience more volatile months than normal. Nevertheless, persistent government fiscal deficits in several developed countries appear to be supporting corporate profits and economic growth, encouraging a return to an equity-neutral asset allocation in the Fund. Expectations of new government investment in infrastructure are influencing stock selections and the industries to which the Fund's managers are exposed. Electricity infrastructure modernization and services related to education, information and specialized data remain among the impact themes they favor in their responsible investment strategies. Nevertheless, future events and their influence on markets always remain uncertain.

On March 20, 2025, Mr. Gilles Lemieux and Mr. Pierre Rousseau were appointed Chairman and member of the Independent Review Committee, respectively, following the end of Mr. Michel Desjardins' mandate.

## **Related Party Transactions**

### **Manager, Trustee and Portfolio Advisor**

R.E.G.A.R. Investment Management Inc. is the Manager, Trustee and Portfolio Advisor of the Fund. The Fund pays management fees to the Manager and Portfolio Advisor in return for management and investment advisory services (see the Management Fees section below). For the period ended June 30, 2025, total management fees were \$801,072. The Fund also pays administration fees to the Manager. In return, the Manager assumes responsibility for the Fund's operating costs and expenses, apart from certain specified costs. For the period ended June 30, 2025, total administration fees were \$168,224.

The Fund paid distributors a service fee for the direct or indirect provision of services to the Fund. See the Information on Classes section for the annual expense rates for each class (as a percentage of average net assets). Holders of Class F units also pay consulting fees directly to the authorized distributor. Holders of Class P and I units pay fees for consulting services directly to the manager. These fees are not part of the Fund's expenses.

### **Other Related Party Transactions**

During the period, and pursuant to applicable securities legislation, the Fund's manager disposed, as of May 9, 2025, of all 51.114 Class I units it held. These units consist of the 50 units initially acquired on May 10, 2024, along with additional units acquired through the reinvestment of distributions. This transaction was carried out at fair market value, in the ordinary course of the Fund's business. As of June 30, 2025, no units are held by the Fund's manager.

This transaction did not require approval from the Independent Review Committee ("IRC"), as it did not constitute a transaction between the Fund and another fund managed by the same manager.

Furthermore, no other related party transactions were conducted during the period. As such, the Fund did not rely on any approval, positive recommendation, or standing instruction from the IRC with respect to any related party transaction during the period ended June 30, 2025.

**Holdings of Class I units of the RGP Impact Fixed Income Portfolio**

The Fund holds Class I units of the RGP Impact Fixed Income Portfolio, another fund manager by the Manager. As at June 30, 2025, the Fund held 5,628,764 Class I units, representing 58.60% of outstanding units of the class.

**Holdings of Class I units of the RGP Emerging Markets Fund**

The Fund holds Class I units of the RGP Emerging Markets Fund, another fund manager by the Manager. As at June 30, 2025, the Fund held 340,723 Class I units, representing 46.23% of outstanding units of the class.

<sup>1</sup> This information is derived from the Fund's audited annual financial statements for prior periods and unaudited interim financial statements for the period ended June 30, 2025. The Fund's financial statements are prepared in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board. The net assets per unit presented in the financial statements may differ from the net asset value calculated for fund pricing purposes. An explanation of such differences, if any, can be found in the notes to the financial statements.

<sup>2</sup> Initial financial year of 99 days.

<sup>3</sup> Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of units outstanding over the accounting period.

<sup>4</sup> Distributions were paid in cash, reinvested in additional units of the Fund, or both.

<sup>5</sup> Initial financial year of 99 days.

<sup>6</sup> This information is provided as at the end of each year or period shown.

<sup>7</sup> The management expense ratio is based on total expenses for the stated period (excluding distributions, commissions, other portfolio transaction costs and withholding taxes), including applicable taxes, and a portion of underlying funds' expenses (mutual funds and exchange traded funds) where applicable, and is expressed as an annualized percentage of the daily average net asset value during the period.

<sup>8</sup> The trading expense ratio represents total commissions and other portfolio transaction costs, incurred directly or indirectly by way of an underlying fund, as applicable, and is expressed as an annualized percentage of the daily average net asset value during the stated period.

<sup>9</sup> The turnover rate of the securities held in a Fund indicates how actively the Fund's portfolio manager manages the Fund's investments. A turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio at least once in the course of the period. The higher the turnover rate in a financial period, the greater the trading costs payable by the Fund in a financial period, and the greater the possibility that the unitholder of the Fund will realize taxable capital gains during the financial period. There is not necessarily a relationship between a high turnover rate and a Fund's performance.

<sup>33</sup> This information is provided as at the end of each year or period shown.

<sup>34</sup> The management expense ratio is based on total expenses for the stated period (excluding distributions, commissions, other portfolio transaction costs and withholding taxes), including applicable taxes, and a portion of underlying funds' expenses (mutual funds and exchange traded funds) where applicable, and is expressed as an annualized percentage of the daily average net asset value during the period.

<sup>35</sup> The trading expense ratio represents total commissions and other portfolio transaction costs, incurred directly or indirectly by way of an underlying fund, as applicable, and is expressed as an annualized percentage of the daily average net asset value during the stated period.

<sup>36</sup> The turnover rate of the securities held in a Fund indicates how actively the Fund's portfolio manager manages the Fund's investments. A turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio at least once in the course of the period. The higher the turnover rate in a financial period, the greater the trading costs payable by the Fund in a financial period, and the greater the possibility that the unitholder of the Fund will realize taxable capital gains during the financial period. There is not necessarily a relationship between a high turnover rate and a Fund's performance.

## Management Fees

The Fund pays management fees to R.E.G.A.R. Investment Management Inc. The management fee paid per class is calculated as a percentage of the net asset value of the class as of the close of business on each business day (see “Information on Classes” below for management fees paid by each Class, as well as the breakdown of the services received in return, as a percentage of management fees). The management fees are used in part to pay costs incurred for investment advice and for investment management services, as well as for services related to distribution, including the cost of financial planning services, advisor commissions and bonuses, costs related to marketing and other promotional activities and Fund training sessions.

### Information on Classes (as at June 30, 2025)

Classes <sup>37</sup>	Purchase options <sup>38</sup>	Management fees (before applicable taxes)	Distribution services	Investment advice and management services
Class A	Initial sales charge	1.8%	55.2%	44.8%
Class F	No sales charge	0.8%	–	100%
Class P	No sales charge	0.0%	N/A	N/A
Class I	No sales charge	Negotiated	N/A	N/A

<sup>37</sup> The Fund does not pay any management fees for Classes P and I. Investors pay fees for consulting services directly to the manager.

<sup>38</sup> Other fees may apply. Please consult the Fund’s Simplified Prospectus for further information.

## Past Performance

The performance information shown below assumes that all distributions made by the Fund in periods shown were reinvested in additional securities of the Fund. The performance information does not take into account acquisition, redemption, distribution or other optional charges that would have reduced returns or performance. How the Fund has performed in the past does not necessarily indicate how it will perform in the future.

### Year-by-Year Returns

The following bar charts show the Fund's annual performance for each of the years or the periods shown, and illustrate how the Fund's performance changed from year to year or period to period. Expressed as a percentage, these results show how much an investment's performance has increased or decreased between the first and last day of each year or period.

\* Returns for the period from September 24, 2020, to December 31, 2020.

## Class I
